many years for some [CENSORED] my guitars.. You [CENSORED] t go wrong with this [CENSORED]!  Highly recommended !	
" Easy and fun! Plays at your speed. Recommend it i s great. Like h having y o it own [CENSORED] in your m on s basement.	5,0
- I LOVE IT. Huge money saver.	5,0
- I think every console, especially now-a-days, should have [CENSORED] intercooler attached because [CENSORED] how [CENSORED] gaming consoles are used now. For the price, this [CENSORED] STS cant be beat. It's really [CENSORED] and looks great even on special edition Xbox 360's. I have the Halo Reach Edition and it just adds that extra bit [CENSORED] awesome to it. - The fan itself works efficiently and directs the air out the front [CENSORED] the Xbox which is really [CENSORED] if its on entertainment shelves or in close proximity to another console or other components. - The fan [CENSORED] switch off and on automatically when it detects a certain amount [CENSORED] heat and [CENSORED] shut off on its own [CENSORED] well. If you turn off your console and its still producing heat the fan [CENSORED] kick on until it [CENSORED] the system down. - Now for the [CENSORED] part, this fan is super quiet and actually helps with the [CENSORED] [CENSORED] the system especially during loading and online game play. - Overall this product is DEFINITELY [CENSORED] \$17 it's a great [CENSORED].	5,0
- The Iron [CENSORED] [CENSORED] is small at about 1:6 scale, but [CENSORED] a solid weight and attention to detail that even non-collectors [CENSORED] notice. The \$50 gift card is good through 2009, and more then covers the extra cost for the set. Those inclined to want the mini [CENSORED] [CENSORED] likely find many more [CENSORED] their geek interest covered by the dozens [CENSORED] items available on Sideshow Collectibles gift card approved list. - The movie case is the full standard [CENSORED]-disc retail package, [CENSORED] I won't comment on it beyond mentioning two points. One; it [CENSORED] likely be the Canadian (French/English) cover design with the [CENSORED] disc content [CENSORED] in the US. Two; it's [CENSORED] buying the slightly more expensive [CENSORED]-[CENSORED] version if you have [CENSORED] HDTV home theater. - IF this	5,0
